Arefi Group

Capability Statement

Arefi Group supplies IT hardware, software, cybersecurity, and industrial and hard-to-find products to public agencies, prime contractors, and businesses. Every quote states price, lead time, origin, and terms in writing.

Core Competencies

01 **IT Solutions.** New laptops, desktops, rugged devices, workstations, servers, storage, networking, and meeting-room equipment, with warranties and support renewals co-termed to one date. Software licenses and cloud subscriptions on one renewal calendar. Remote managed IT support.

02 **Cybersecurity.** Firewalls and their security subscriptions, endpoint, identity, and email security, and backup, set up remotely. Resold managed detection, delivered by the provider's security operations center. Security policies and gap reviews.

03 **Government Contracting.** Responses to RFQs, RFPs, and sources-sought notices, as prime or subcontractor. Work packages for prime contractors. Program management, and continuity and field-ready technology kits.

04 **International Supply.** U.S. technology supplied to buyers abroad, limited to items that need no U.S. export license, with every party screened.

05 **Industrial & Global Sourcing.** MRO tools, electrical and lighting parts, test instruments, PPE, and fleet parts sourced worldwide for U.S. buyers. Hard-to-find and end-of-life parts, new only, with the source named.

Differentiators

- **Compliance on the quote.** Origin, Buy American, TAA, and NDAA Section 889 reviewed against each solicitation.
- **New products, named source.** Manufacturer and authorized-distributor channels where available. Any other source is named and used only with your approval.
- **Terms before you order.** Price, lead time, freight, warranty, and return terms in writing; substitutes flagged before you order.

How to Buy

1 Email your item list, scope, or notice number to info@arefigroup.com.

2 Receive a written quote.

3 Issue a purchase order.

Prime contractors: subcontract or teaming agreement.
